Professional Summary

Senior Software Engineer with 5+ years of experience building scalable frontend platforms and design systems using React and TypeScript. Experienced in performance optimization, security validation systems, and enterprise workflow automation. Strong focus on clean architecture, maintainability, and business impact.

Skills

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
State Management: Redux, Context API, Zustand
Styling: Tailwind, Styled-Components, CSS Modules
Backend: Node js, Express js, Microservices Architecture, Python, Fast API, Flask
Database: MongoDB, Oracle, SQL
Testing: Jest, Cypress, Playwrite
Tools: Git, Webpack, CI/CD, Storybook
Cloud & DevOps: AWS, Azure, docker, Jenkins
Design & Collaboration: Figma, Agile methodologies

Experience

Senior MERN Stack Engineer / CriticalRiver Inc.
FEBRUARY 2025 - PRESENT, HYDERABAD TELANGANA

- Led end-to-end development of the property document registration workflow serving 15,000+ users annually.
- Reduced duplicate registrations by **92%** through advanced scrutiny validation logic.
- Built document resubmission system reducing support requests by **40%** and improving verification success by **35%**.
- Strengthened security checks ensuring 100% claimant validation accuracy.
- Enabled secure cross-border registration for NRI/OCI users increasing international transactions by **28%**.
- Improved overall system performance by **25%** and increased user satisfaction by **20%**.

Software Engineer II / Appfire Technologies
DECEMBER 2023 - JANUARY 2025, HYDERBAD TELANGANA

- Contributed to scaling the **Fuegokit Design System**, improving UI consistency across products by **35%**.
- Integrated **AWS services** with **Atlassian tools**, reducing manual operations by **30%**.

- Structured and maintained Confluence documentation, improving team collaboration by **25%**.
- Authored **ADRs** and streamlined documentation standards, reducing onboarding time by **40%**.
- Implemented **automated test suites**, cutting manual **QA** effort by **60%** and increasing coverage to **85%+**.

Software Engineer / LegalZoom - Revvsales Inc. (Acquired by LegalZoom)
DECEMBER 2020 - OCTOBER 2023, BENGALURU KARNAKATA

- Redesigned homepage and template modules reducing developer effort by **30%**.
- Delivered MVP integrations with Retool and Salesforce accelerating deployment by **40%**.
- Built bulk document creation feature reducing processing time by **35%**.
- Optimized automation workflows improving server utilization by **50%**.
- Developed core eSignature interface powering LegalZoom's document operations platform.

Education

Bachelors of Science / Sri Venkateshwara University
JULY 2017 - OCTOBER 2020, TIRUPATI ANDHRA PRADESH

MECs (Maths Electronics and Computer Science) with 94%.

Full Stack Web Development Certification / Masai School
APRIL 2020 - NOVEMBER 2020, BENGALURU KARNAKATA

Completed comprehensive training in the MERN stack and other development tools.

Honors & Recognition

- Received graduation recognition from the Honorable Education Minister of India, **Dharmendra Pradhan**, upon completion of Full Stack Web Development program at Masai School.
- Winner – REVV Hackathon (2020)
- Winner – Appfire Hackathon (2024)

Leadership & Community

- Volunteer & Mentor at Joining The Dots (2017–2023), guiding aspiring software developers.
- Active participant in hackathons and open-source contributions.
